

MAINTENANCE CHECKLIST

The following are some danger points that should be checked periodically. Simple hand tools and the tools provided with your equipment will help you maintain your playground.

- 🐾 Visible cracking, bending, warping, rusting, breaking, or excessive wear of any component or part.
- 🐾 Deformation of open hooks, rings, links, etc.
- 🐾 Worn swing hangers, "S" hooks, or chains.
- 🐾 Missing, worn, cracked, or jagged swing seats.
- 🐾 Broken supports or anchors.
- 🐾 Concrete footing exposed, cracked, or loose in ground.
- 🐾 Sharp edges or points.
- 🐾 Exposed ends of pipes that should be covered by plugs or caps.
- 🐾 Protruding bolt ends that do not have smooth finished caps or covers.
- 🐾 Loose, worn, or rusted bolts, nuts, or other fasteners.
- 🐾 Splintered wood.
- 🐾 Lack of lubrication on moving parts.
- 🐾 Worn or squeaky bearings.
- 🐾 Broken or missing rails, steps, rungs, or seats.
- 🐾 Surfacing worn or scattered. Loose fill surfacing fill level and appropriate depth, look for cracks or damage in unitary surfacing.
- 🐾 Swing chain wrapped around horizontal swing beams.
- 🐾 Chipped or peeling paint.
- 🐾 Broken glass, trash, or foreign objects within or on the play equipment.
- 🐾 Pinched or crushed points (exposed mechanisms, junctions, or moving components).
- 🐾 Loose or twisting climbing rungs.
